EMPRESS, ALTA. THURSDAY, June 4, 1926

Price: \$2.00 Per Year

## D. A. McCrimmon, Jenner Conservative Candidate

The Conservative Nominating Convention for the Constituency took place Tuesday afternoon in the local theatre. The names of D. A. McCrimmon, Jenner, and Dr. MacCharles, Jenner, were moved and seconded in nomination for candidature. Dr. MacCharles for health and business reasons refused to allow his name to stand and Mr. D. A. McCrimmon was elected candidate.

Other business transacted was the organizing of a Constituency association. Dr. MacCharles was elected president and D. Leah, Secretary, and various vice-presidents were appointed. Speakers were G. M. Blackstock and P. Stone. Mr. Blackstock dealt chiefly with the reason for placing a Conservative candidate in the field and later, with budget and public debt figures. He said that from a clean sheet in 1905 the public debt of the province had risen to \$9 millions in 1921, under Liberal regime. Under the Greenfield administration, he said from 1921-24, the debt had increased to \$4 millions.

P. Stone in his first talk told of the named intention of the Conservative Leader to place a candidate in the field in every riding, in the concluding speech he told of Mr. McGillivray's proposed remedies for the dry areas problem, railway problem, educational problem and his statement it returned to power to restore the credit of the Province and balance the budget the first year of his government.

### Note and Comment

The general opinion is that the fight is between the Liberal and Farmer candidates.

That John Fowle whose chances for former candidate seems were greatly favored was possibly their strongest man. That Dr. MacCharles would have been a strong candidate, but the fault is with the Conservatives in their dealing.

P. Stone's talk on his Child's proposed remedies for the ill of the province sounded something like a medicinal Quack's claim for a cure-all medicine.

## United Church N. W. Whitmore, B.A. Minister

Sunday School, 11 a.m.  
Public worship, 7.30 p.m.  
On Sunday next, June 6, the Sunday School room of the new church, will be used for services.

A special form of service will be used combining dedication with thanksgiving for the leading and blessing of God in the work of the past year, particularly the erection of a new house of God in our community.

It is fitting that in this connection we shall be maintaining a common motive of worship with all the congregations of the United Church, throughout Canada, who are called upon to offer thanks to God for a wonderful year of blessing.

### Beautyland

Beautyland, 3 p.m.

### Anglican Church

Services on June 6th (at Sunday after Trinity).  
St. Mary's Church.  
9 a.m. Holy Communion.  
11 a.m. Sunday School.  
7.30 p.m. Evening Prayer.  
J. Rowles' Farm: 3 p.m.  
L. J. Tatham,  
Priest-in-charge.

### Value of A Child

An angel passed in his onward flight  
With a seed of love and truth and light,  
And he cried, "O where may this seed be sown  
To bear most fruit when it is grown?"  
The Saviour heard, and said as he smiled  
"Plant it for me in the heart of a child!"

Encourage and support all Sunday School effort.

Born—To Mr. and Mrs. E. O. Pound, May 30, a son.

Born—To Mr. and Mrs. H. P. Cowman, Cavendish, June 1, a daughter.

Rev. S. G. Stevens, of Acadia Valley, was admitted to the hospital, May 31.

I.e. the valve that was good as a polish or cement for a broken glass or could be used with equal efficacy for the hair, bunions, toothache or cold.

## BINDLOSS NEWS

Leonard Haglins, has now got the Garage in working order.

Little Francis Boughen, has been down with an attack of measles, but we are pleased to learn that she has now fully recovered.

J. G. Falconer, who has been attending the Brit. Col. University, has received his degree for Applied Science and has added to his name B.Sc.

Mrs. Gillup and Mrs. Falconer have been appointed delegates to attend the W.L. Convention which will be held in the Palliser Hotel, Calgary. (Received too late for last week)

## Castle Coombe W.M.S.

The Castle Coombe W.M.S. will meet at the home of Mrs. Ferguson, Wednesday next, June 9, at 12 o'clock for lunch. An interesting programme is being provided for the meeting, which will commence at 2.30 p.m. (Rev.) Mrs. Pollard of Prelate, is expected to give an address. Gentlemen, please bring the ladies.

## Card of Thanks

May 31st, 1926.

To the Public:  
The members of the Empress School Board desire to publicly express their appreciation to Messrs. N. W. Whitmore and William Stothers for their kind assistance in teaching during the recent illness of Principals Cheesnut. Neither of these gentlemen would accept any remuneration for their service.

M. A. Blodgett, Chairman,  
D. McEachern, Sec.

Sells Store at Drumheller

Another business change took place in Drumheller recently, when C. M. Robb disposed of his grocery business to the Jenkins Groceries Limited, Calgary. Mr. Jenkins and Mr. Coudesh spent a few days in town looking over a location and after completing the deal with Mr. Robb, returned to Calgary. The Jenkins Groceries, Limited have nine stores in Calgary, and are opening a chain of 18 more, in the larger towns throughout the province.—Ex.

We are agents for all magazine literature. Bring us your orders and Renewals.—"Empress Express."

## W. C. Smith Receives U. F. A. Nomination

Convention Draws Large Attendance. Theatre is Filled at Evening Session to Hear H. W. Woods.

The United Farmers of Alberta held their Nominating Convention at Empress, May 30. At the opening session in afternoon a large attendance from all parts of the constituency gathered. John Fowle, of Social Plains, was chairman, and J. Barnes, Sharrow, secretary.

Disappointment was expressed, when it was learned Premier Brownlee was unable to attend owing to illness, although pleasure was evinced in the selection of H. W. Woods, president of the U.F.A., to address the meeting in the evening.

Rev. N. W. Whitmore, welcomed the delegates and spoke for Empress businessmen and council who had placed the hall at their disposal for the day, free of cost.

J. Fowle, president of the constituency locals gave a short address dealing with the activities of the group of locals since 1921. U. Axelson, of Ringville, gave a report as director, and stressed necessity for team work not only for campaign but also for all co-operative work. Mr. Fowle, then explained Premier Brownlee's inability to attend.

Appointment of committees was then taken up, and Directors' recommendations of committees of three for Order of Business and Credentials approved after which, on motion of U. Axelson, a Ways and Means committee for election purposes was appointed. After a short adjournment to enable the committees to draw up a program for further order of business, W. C. Smith, the present member addressed the audience, having arrived during the adjournment. He spoke briefly, dealing principally with education and reduction of taxation. His address was well received.

After some discussion as to the eligibility of certain of the U.F.A. members present to act as delegates (which on vote was disallowed), the meeting was thrown open to nominate a candidate for the riding at the coming election.

Three names were placed before the delegates, they were: W. U. Smith, Vale, present member; John Fowle, Social Plains; C. Axelson, Ringville. It was agreed that nominators should be allowed to address the meeting in support of the nominees for five minutes and each nominee was allowed to address the meeting for ten minutes. The ballot was then taken and resulted in W. C. Smith's election as candidate. The ballot result was: Smith, 18; Fowle, 7; Axelson, 8. Mr. Smith's candidature was then made unanimous by the other nominees.

The evening session saw the hall filled to its capacity when H. W. Woods, president of the U.F.A. gave an address lasting over one hour and a half on the industrial competition versus co-operation and denunciation of the old line two party system as being out of date and commendation of the group or class government. At the conclusion of his address the meeting was thrown open for questions, which chiefly concerned wheat pool operations and elevator facilities.

W. C. Smith, then followed with an address lasting thirty minutes speaking on various activities of the present government, mentioning particularly railway, telephone, education, reduction of taxation, etc. in government expenses and balancing of the budget. The address was attentively followed and concluded a very well attended and successful convention.

United Church public worship in the new Sunday School room, at 7 o'clock Sunday evening. Please note change in hour of commencement. This is made for purpose of a twilight service, that no lighting system may be procured as yet.

## Announcement:

"Bob" Wallace of the Semi-ready TAILORING CO., will be at my store on Saturday, June 5 with a Full Line of Semi-ready Made-up Clothing Samples of Suits and Top-Coats. Make it a point to call and inspect the latest fabrics and styles.

# ROSE "is good COFFEE"

## Britain Not Bolshevistic

One of the most remarkable, and at the same time most satisfactory, features of the great strike in Great Britain is the way in which the people kept their tempers and passions under control. With millions of men on strike, and many millions more dependent on them for support, and all feeling more or less bitter against the Government and those throughout the country opposed to the strike, it is little short of the miraculous that rioting and violence in excess of all kinds was not general.

Then, too, the strike imposed discomforts, inconveniences, and in some cases, even hardship on every other citizen. Had their tempers and the value of their complaints and the development of businesses of all kinds been the rule it would not have been surprising. It was indeed being expected in almost any country. But despite any and all propensities, the people of Britain kept their heads remaining with few exceptions calm and untroubled.

It speaks volumes for the sturdy character of the British people, and their inherent loyalty, that they have thus "played the game." Grim and determined as both sides in the dispute proved to be, they were banded together for a principle, and the strikers in more ways than one proved the truth of their assertion that they were not fighting Britain, but for what they conceived to be the highest and truest interests of the country. British labor in this struggle—the greatest in the history of the country—demonstrated that it is not Communistic nor Bolshevistic.

The "Rods" in Russia welcomed the British strike with unrestrained joy. For years they have been striving to convert the British worker to Communism. They have desired the overthrow of the present form of government and have conspired and intrigued to bring about a Soviet republic in Britain. The Moscow "Rods" thought success was in sight and proudly offered millions of rubles to assist the British strikers. This money was just as promptly declined by the British labor leaders. British labor had an issue to fight out with the Government, but they had no desire nor intention of destroying the Government. The strike will have served all the valuable purpose in thus proving to the world the inherent loyalty and goodness of the rank and file of British people.

Undoubtedly the British Government and the overwhelming majority of the people are in full sympathy with the strike, and the strikers, on their part, are doing the best possible working conditions, hours of labor and pay. There is no difference of opinion as to the desirability and necessity of solving the coal mining problem in the British Isles. Where the Government and the majority took issue with the strikers was in the method adopted by the latter to enforce their own views and opinions upon the country, namely, through a general strike to deprive all people of the conveniences and necessities of life and thus force them to give substance to their demands.

If there is one national characteristic of the British race it is their love of freedom and fair play. They will not be forced, nor how to dictate. And the strikers made an irreparable blunder when they sought by depriving all the people of means of transportation and other essential services to force compliance with their own wishes. It is not "fair-play" to impose discomfort, loss and suffering upon innocent millions of people in order to "get at" those in authority with whom the strikers had a quarrel. This smacked too much of German military methods inflicted upon innocent Belgium in order to strike a blow at France.

Furthermore, while people generally are anxious that all necessary reforms in the coal industry shall be effected as quickly as possible, they cannot and reject the assumption upon which the strike was based that it was necessary to take them by the throat and force them into submission.

Methods which may appear to be successful in the short run, but which are the flimsy-looking Anglo-Saxon. This was well established in the One Big Union strike in Winnipeg a few years ago. It has again been proven on a much larger scale in the British general strike. The British workers proved their loyalty to Britain by refusing Soviet money, and by their declaration that they were engaged in a purely domestic struggle which in no way involved their national honor. But they made a mistake in adopting Soviet strong arm methods in waging their domestic battle.

The result of the struggle is to establish that the British people, including the great mass of British Union labor, are in no danger of accepting the ill-considered theories and quick remedies of Bolshevistic Russia and Communist demagogues throughout the world.

## Making Use Of Geysers

Town in Iceland Uses Water To Heat Houses

The wonderful geysers of Reykjavik, in Iceland, are now being used to heat the town and to warm and water greenhouses and gardens.

Water from the geysers is forced through narrow pipes laid at a depth of about three feet in the soil, and the warm water favors and hastens the growth of both vegetables and fruits.

Near the largest geyser a very large greenhouse has been built, and all kinds of flowers and vegetables are being cultivated with extraordinary success. It is possible, indeed, that with the assistance of its geysers Iceland will be able to compete with the Channel Islands as a purveyor of early potatoes and flowers.

Uniform and satisfactory results invariably follow the use of

**Borden's EAGLE BRAND Condensed Milk**

Poison Becoming Cheaper

Calcium Arsenate Or Arsenite Of Lime Is An Economical Insecticide

The old bugby arsenic has been replaced by a new, but times have changed. The car is now the popular means of conveyance. Paris green was the old-fashioned poison for potatoes, beetles and sundry other pestiferous insects, but its day of economical service is fast passing. According to Professor A. V. Mitchell, entomologist department, Manitoba Agricultural College, a newer and much cheaper poison for insects has been made its appearance upon our markets and should be more widely known than it is at the present time. This newer insecticide is calcium arsenate of arsenite of lime. It is much cheaper than Paris green, shows up on the foliage better, it is white, and will not burn the foliage when applied either dry or in water.

The price of calcium arsenate or arsenite of lime has dropped this year and this fact should make this insecticide more popular with both growers and dealers. Wholesale houses carry it and will be pleased to quote prices to local buyers. Unless the local dealer orders now he is not likely to have any upon which to rely when it is wanted. A word in time to the local dealer may save the grower dollars.

**Sleep Necessary For Health**

Eight to Ten Hours Not Too Much Says Medical Officer

How much sleep should a business man have if he wishes to keep fit and to a good old age?

The question is answered by Dr. A. T. Nankivell, the medical officer for Pinhook, who says that eight to ten hours are necessary.

He points out that although we crowd into our days three times as much as our grandfathers did, we still need the same amount of rest and sleep.

The strain of modern life is considerable, says Dr. Nankivell, and a man who has had a strenuous day should rest and sleep his eight to ten hours if he wishes to keep his youth and spiritual elasticity.

The strain of modern life is considerable, says Dr. Nankivell, and a man who has had a strenuous day should rest and sleep his eight to ten hours if he wishes to keep his youth and spiritual elasticity.

**Something To Think About**

Hysteria In Grow-ups Just Reaction To Childhood Tantrum

Hysteria in adults is largely due to the influence of childhood and parental loving the youngster to gain its goal by "throwing a tantrum." Dr. M. R. Gregory told his associates in the seventh annual annual convention of the American Medical Association.

A baby gets what it wants by a tantrum. It will react when grown up in the same manner—a condition the individual cannot control." Dr. Gregory said, "If the child has been trained to meet reality, then as an adult he or she will meet reality and remain well."

Worms are encouraged by morbid conditions of the stomach and bowels, and so subside. Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away.

No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young.

**District Welcomes Increased Service**

The increased train service between Saskatoon and Edmonton, via North Battleford and Lloydminster, which took effect on May 11, will be a great convenience to the people living in that territory, according to transportation officials of the Canadian National Railway.

This district has been served for a number of years by a night service only, whereas now there is a double service, trains leaving the Edmonton and Saskatoon in the morning, making connections for the east and west.

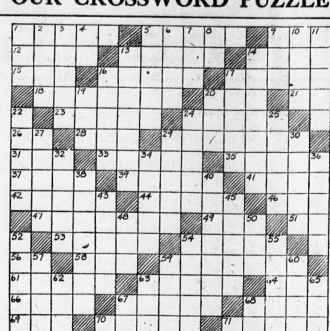

A cloth, lighter than white, does not so absorbent. The new "Milkmaid" cloth, has been created in London.

The devil never takes up a collection. All contributions are voluntary.

## GIVE CONFIDENCE TO YOUNG MOTHERS

By Always Keeping Baby's Own Tablets in the Home

A simple and safe remedy for the common ills of babyhood and childhood should be kept in every home where there is either a baby or a young child. Often when a mother gives the little one something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth.

Dr. Williams' Baby's Own Tablets are the home remedy for all these troubles and save their little ones so suddenly and the young mother can feel reasonably sure that with a box of these Tablets at hand and ready for emergencies.

Dr. Williams' Baby's Own Tablets are a safe, sure, and pleasant free from opiates or other harmful drugs. They are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

## Heavy Sentence For Aged Spy

Seventy-Year-Old Blind Woman Convicted In Russia

Ana Yegorovna Stecherkova, known as the grandmother of the zarist propagandists, seventy years of age and blind, will spend the next seven years, if she lives, in solitary confinement. She was convicted by a revolutionary tribunal and sentenced to death, but because of her age and infirmity the court commuted the penalty.

The woman had been for twenty-five years the secret spy of the Russian government and during that time was charged with betraying many prominent social revolutionists and nihilists, among them Anatole Louis, a well-known French socialist, and a number of the leaders of the revolutionary movement in the young republic.

She was a French woman where she maintained an elegant salon, much frequented by the Bolsheviks.

## Do You Cough?

—McDonald's Audio

**Mrs. J. McDonald**

"Toronto, Ont.—I have used Dr. Pierce's medicine in my family for years and find excellent in every respect. It cures colds, coughs and for bronchitis trouble, also a blood medicine. I found the 'Golden Medical Discovery' just excellent. It builds up the blood, cures the blood and makes one feel fine in every respect."

I take great pleasure in recommending this medicine of Dr. Pierce's for it does just what is claimed for it. It is reliable and good. Mrs. J. McDonald, 28 McIntosh St.

Dr. Pierce's "Golden Medical Discovery" in tablet or liquid form, send for trial pack of 14 tablets free. Dr. Pierce's Remedies, Littleton, Colo.

## Cancer Takes Heavy Toll

Death Rate From This Disease Said To Be Increasing

The increase in deaths from cancer in Ontario and the rest of the Dominion has been alarming, says the committee of cancer reported to the Ontario Health Officers' Association.

"Not only has the number of deaths from cancer in Ontario increased generally, but the rate per hundred thousand of population and the percentage of cancer to deaths, all over the continent, has increased alarmingly," the report said.

Worms feed upon the vitality of children and enfeeble their lives. A simple and effective remedy is Miller's Gravel Worm Expeller.

## Treasure Hunt Was Profitable

Fort William Boy Found Jewelry Valued At \$1,000

Bruised thumbs brought reward and promises to Harvey Shaw, an 11-year-old boy, William, a treasure hunt near his home, Harvard, unearthed jewelry valued at \$1,000 and immediately turned it over to the police. He found it under a sidewalk near his home. The treasure was identified as part of the loot taken in a \$25,000 robbery there. The robbery was never apprehended.

## For Good Roads

Contracts Let For \$106,000 in Road Work In Saskatchewan

The Saskatchewan Government has let contracts for a big program of highway construction, the following contracts, a total of \$106,000, having already been awarded for the following:

Forward west, seven miles, to W. E. G. Ross, Regina, \$7,500; from Herbert to Valhalla, to F. C. Har, \$25,000; from Carleton Place to Carleton Place, \$25,000; from Carleton Place to Carleton Place, \$25,000; from Carleton Place to Carleton Place, \$25,000.

Charles B. Morgan, The Pas, Man., \$38,000.

## Large Floor Mill For Calgary

Shipley Overseas Limited to Build One Of The Largest Mills In Canada

Advised from London, England, are the effect that Shipley Overseas Limited, is going ahead with its arrangements to complete and equip its mill at Calgary. The completion of the building will cost about \$1,000,000 and the equipment more than twice as much. It is expected that this mill will be in shape to handle the 1927 crop and that it will be one of the largest in Canada.

## Big Irrigation Association Meets

The annual convention of the Western Canadian Irrigation Association will be held in Medicine Hat on July 27, 28 and 29. Prominent irrigators from Canada and the United States are expected to be present.

Similar opportunities will make a hero of one man and a foot of another.

Tortolines are fond of lettuce, cabbage and strawberries.

## "DIAMOND DYE" ANY GARMENT, DRAPERY

Just Dip To Tint or Bold to Dye

Buy Diamond Dye to tint and dye your drapery without the usual fuss and bother. It is safe, it is easy, it is quick, it is economical, it is the only dye that will color and mix with anything.

## Find Large Munition Dump

Concealed Behind Falls Wall Discovered By Dublin Police

A munition dump, one of the largest ever found, was recently discovered by Dublin detectives behind a falls wall in a stable in King Street, Dublin. It contained nearly 300 live bombs, 5,000 rounds of rifle ammunition, 10,000 detonators, and two tons of high explosives, including cordite and gelignite. Many spare parts for bombs and a quantity of materials were also found.

Some of the boards of the wall were removed, revealing a secret chamber. The dump was discovered by the police, who found nothing.

The Federal government does not intend to establish an Indian hospital in Central Saskatchewan, it was stated in the House of Commons in answer to a question.

There are only 117 unemployed persons in Paris, whereas London, before the strike there, had 860,000 and Berlin 450,000. Minister of Labor Duranton said at a banquet inaugurating the Tours exposition week.

A dispatch from Chicago says out of his own pocket, States Attorney Robt. Crowe has offered \$5,000 reward for information leading to the arrest and conviction of the machine gun slayers of his assistant, William H. McSwiggin, and two beer runners.

A column of French troops tramped over the route to Smolensk and buried the remains of 2,000 of their comrades, who were massacred by Druze tribesmen nine months ago while attempting to relieve the Smolensk garrison, which was besieged by the tribesmen.

A new cabinet has been announced in Poland, with Premier Witos at its head. The new ministry reports both the centre and the right wing parties. Foreign Minister Morawski of the previous cabinet retained his portfolio.

For the Little Fellow

The small boy will revel in this attractive version of the Oliver Twist suit. We call it the "little brother suit" because boys and girls of a similar age are sometimes dressed alike, and it makes a delightful companion to our "little sister dress," No. 1254. The blouse fastens with three scallops at the front, and has scalloped edges on collar and cuffs. The sleeves are made for a shorter length, and the lower edge of the blouse is gathered to a wide band. The straight trousers open at the sides and button onto the blouse. No. 1256 is in sizes 2, 4 and 6 years. Size 4 years requires 1½ yards 36-inch material for the suit. Price 29 cents.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy but easy to make with our own pattern. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the only.

## Progress in Alberta

Artificial completion indicates the progress made by the province of Alberta in the past 29 years as follows: Agricultural products, \$200,000,000; wheat production, 103,000,000 bushels; 2,000,000; area in all crops, acres, 616,000, 11,000,000; dairy products, value, \$1,000,000, 1,000,000; coal production, tons, 921,000, 5,800,000; manufactures, value, \$1,570,000, \$1,537,000; miles of railway, 1,000, 4,800; population, 200,000, 640,000.

W. N. U. 1629

The Resources  
of an Empire!For Present and Future Development  
in the Province of Alberta

**D**AME NATURE has been kind to the Province of Alberta. No Province of Canada occupies so strong a fundamental position as Alberta, with its great wealth of agricultural and other resources, the development of which has only just begun. Surely then, with so sure a basis for faith and confidence in the future, the people of Alberta need not hesitate to face the problems that arise, nor to join in the shoulder-to-shoulder movement for the intelligent promotion of the development of these great resources. Knowledge of these resources is all that is necessary to create confidence. It is for this reason that this newspaper presents below a brief review of Alberta's wealth and possibilities.

## 20 Years of Progress in Alberta

	1905	1925
TOTAL VALUE AGRICULTURAL PRODUCTS	\$20,000,000	\$256,000,000
WHEAT PRODUCTION	3,000,000 Bus.	103,000,000 Bus.
DAIRY PRODUCTS, VALUE	\$ 1,000,000	\$ 23,000,000
COAL PRODUCTION	931,000 Tons	5,800,000 Tons
MILES OF RAILWAY	1,000 Miles	4,800 Miles
POPULATION	200,000	640,000

**AREA**—254,000 square miles, twice as large as the British Isles, larger than France or Germany. Population 2.3 to the square mile, compared with 389 per square mile in the British Isles, 184 in France and 328 in Germany.

**AGRICULTURAL LANDS**—More than 60,000,000 acres of fertile lands capable of cultivation still untouched.

**FREE HOMESTEADS**—More than 15,000,000 acres of land still open for free entry.

**IRRIGATION LANDS**—One million acres now under irrigation, three million more capable of irrigation.

**COAL**—Largest coal resources of any similar area in the world. Alberta has 14 per cent. of the world's coal reserves; 72 per cent. of the British empire coal reserves and 87 per cent of Canada's reserves.

**NATURAL GAS**—Four large fields now operating, supplying four cities and several towns with gas fuel.

**OIL**—Two producing fields, one containing the richest producing oil well in the world, bringing in 15,000 barrels monthly of almost pure naphta, in the Turner Valley. In the Wainwright field wells producing 80 to 150 barrels a day crude petroleum, other wells promising. Other fields being developed.

**TIMBER**—60,000 square miles of merchantable timber, including 270,000,000 cords of pulpwood.

**TAR SANDS**—15,000 square miles of rich tar sands, suitable for paving material or oil extraction.

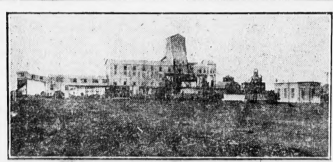

**OTHER MINERALS**—Include salt, bentonite, clay for ceramics, building stone, etc.

**WATER POWER**—Utilized and available estimated at 1,750,000 horse power.

**FISHERIES**—Extensive commercial fish possibilities. Annual production valued at \$400,000.

**FURS AND GAME**—Annual value furs and game over \$2,000,000.

**TOURIST ATTRACTIONS**—Three big mountain parks, including some of the most famous mountain resorts and scenery in the world.

AN ALBERTA COAL MINE

This page is published by this newspaper as part of a united effort by the Alberta Press Association to place before the people of Alberta the strong fundamental position of this province, her progress to date, and the great possibilities for the future.

## Container For Iodine

Solidified iodine may now be obtained in a glass pencil-shaped container. The case is equipped with a small rod and on this the chemical is fastened so that the piece is used as a dasher and no bottle or cork is needed. This arrangement prevents spilling, and the holder, being of thick glass, will not break easily.

## Fish Eggs Arrive in Free State

Canadian fish eggs recently sent for experimentation in European and Japanese waters have been received in the Irish Free State and Japan in a very satisfactory state, the department of marine and fisheries has been advised. Fifty thousand speckled trout eggs were forwarded to Japan from Vancouver.

## Woman Enters Taxi Business

Miss Helen Jane O'Farrell Kelly, a twenty-seven-year-old Irish girl who drove a British army motor lorry at the front during the war, and afterward was the first woman head of a company operating an independent fleet of omnibuses in London streets, has sold out the bus trust, and is to enter the taxi business.

## Tips For Travellers in 1930

Travelers on English railroads in 1930 were well fortified with good advice before starting on a trip. Some of these sage bits included a caution not to sit in any unusual place or position, to avoid seats on the roof, and a warning that passengers in second-class carriages having no doors should avoid sticking their feet out.

## Best Time For Shearing

As soon as the sheep's fleece becomes shaggy shearing should be provided for. This practice is good for the sheep, for the wool and for the pocket book. As soon as the sheep is sheared, she should be dipped and well dipped at that. The dipping should be repeated in ten days. She are profit eaters.

# Amundsen Arrives Safely After Dirigible Voyage Over The North Pole

Nome, Alaska. — Captain Roald Amundsen, Lincoln Ellsworth, Captain Oscar Wisting, and Lieut. Oskar Omdahl, of the crew of 18 of the dirigible Norge, arrived here from Teller, 75 miles northwest, in the launch pilot.

The Norge landed at Teller, 72 hours after having left King's Bay, Spitzbergen, on Tuesday. The air voyage took the dirigible across the North Pole, where the explorers dropped the flags of three nations.

After word was received of the passing over the Pole, it was reported the dirigible was seen early Thursday night near Point Barrow. From there it came early Saturday, no message was received from the Norge. It was feared that a storm might have drifted the dirigible far from the Alaska coast.

Lieutenant Hjalmer Riiser-Larsen, Norwegian, second pilot, said that this time and open water were reached at the North Pole, but no land was discovered in the Arctic wastes.

The big airship was in the air about 72 hours.

Considerable time was spent at the Norge making observations, the Norge having descended to within 600 feet of the ice, and risen to an altitude of 4,000 feet.

Over Point Barrow, on the Arctic coast, 550 miles north, no message was received on the whirling propellers of the ship and then broke off, cutting the big gas bag. Loss of hydrogen gas made the Norge extremely heavy. A fair wind aided it on the voyage from Barrow to Teller.

The crew of 18 arrived at Teller, very tired but in excellent physical condition.

## Crop Conditions In Europe Excellent

Are Making Seasonable Progress Says Report From Rome

Ottawa.—According to a cablegram received by the department of agriculture from the International Agricultural Bureau, Rome, the condition of winter cereals in Bulgaria is excellent. Crop conditions are good in Italy, and in Hungary the grain is in excellent condition. In Belgium, Poland and Hungary the weather has been favorable and the crops are making general progress. Conditions have been normal in Roumania, and spring sowings have been completed at the end of April. There have been some complaints of rust in France, and crop conditions are not so good in that country as they were at this time last year.

## An Honorable Settlement

Ottawa.—The basis of settlement between the British Government and the United States Trade Union Congress Council is both an honorable and common sense one," stated P. M. Draper, secretary-treasurer of the Trades and Labor Congress of Canada, in commenting on the announcement that the general British strike had ceased.

## 'Britain's New Princess Is Named

London.—The daughter born to the Duke and Duchess of York on April 21, will be named Elizabeth Alexandra Mary. It is announced.

# Natural Resources Bill For Alberta May Be Delayed In Passage

Ottawa.—The trouble which has been stirred up over the choice of the matter, makes it doubtful if the bill in return to the province of Alberta natural resources will be proceeded with this session.

The autonomy bill, which created a provincial government, provided the school fund for educational purposes and in this measure public and private schools were recognized. The public lands are now being handed back to the province and, while it was not included in the original agreement, the government has on the order paper a resolution by way of amendment. With its legal vehicle clarified, the effect of the resolution is to continue the provincial administration of the same system in regard to school lands that has prevailed in the last 20 years.

Objection has been raised from two grounds. One is that this clause is foreign to the natural resources question and the other is that, if ratified by the Imperial Parliament, as the legis-

## Complete Madrid-Manila Flight

Only Two of Six Spanish Aviators Were Successful

Manila.—Two of the six Spanish aviators who started from Madrid 38 days ago to fly to the Philippines in their 11,000-mile journey when they brought the only remaining plane of the three that left Spain to rest at Camp Nichols, three miles from Manila.

Captain Don Joaquin Loriga and Captain Eduardo Gonzalez were the pair who attained the goal despite the mishaps which have dogged the adventure, claiming the machine flown by Captain Esteve, in a Palestine desert and that of Captain Loriga off the inhospitable coast of South China. Captain Loriga, taking the plane of the mechanic who had flown with Captain Galzarra as far as Mexico, this was in at the finish.

The aircraft were carried in triumph back to Manila in a long procession of automobiles. Wherever the aviators came the crowds attempted to kiss them and carried them on their shoulders.

## Butter From Antipodes

Subsidized Australian Butter Is Subject To Dumping Duty

Ottawa.—Australian butter and canned fruits, subsidized for export, are subject to dumping duty in Canada equivalent to the amount of the subsidy. This announcement was made in the House of Commons.

Hon. George H. Boulton, minister of customs, said that the government was informed that what is known as the "butter war" has taken effect in Australia on January 1st. It imposes a tax of three halfpence a pound on all butter produced in that country out of the bounty that was paid a bonus of threepence a pound was paid on butter exported from the Commonwealth.

## Discussing Plans To Secure Alberta Coal

Committee Will Ask \$700 Rate On Shipments For East

Toronto.—Mayor Thomas Fost has announced that he would summon the Alberta coal committee, composed of representatives of various Ontario municipalities, in order to discuss plans to secure a supply of Alberta coal. Mayor Foster expects that Premier J. E. Brownlee of Alberta will join with the members of the committee in making representations to Ottawa for a temporary rate of \$7 a ton for this year and that the experiment will prove so successful that the railways will be willing to continue the rate.

## Poland Wants Canadian Goods

Montreal.—Interviewed here on his return from a three months' visit to Poland, Michael Strazewski, consul-general in Canada for that country, declared that there is a good demand for certain Canadian commodities in his country, especially wheat, flour, agricultural implements and asbestos.

## Noted Canadian Painter Dies

Ottawa.—News has been received here of the death in Guelph, Ont., of Jobson Parada, distinguished Canadian landscape painter. Mr. Parada was 75 years old. He was born in St. John's, Que., the son of Judge Parada of the Montreal district.

## Bonnie Scots Bains for Canada

Canada gives a specially warm welcome to children, and Scotland continues to send her share to the Canadian Bains. Here is a note which came from Liverpool to Canada on the Canadian Pacific liner "Montclair," recently. They are Robert and William McRobert, Christie and Nancy Cameron from Fort, John Brown from Govan, W. Gray from Pais, and Flora Stables from Inverness.

## New Flag For South Africa

Over 3,000 Designs Submitted to Committee For Selection

Cape Town, South Africa.—The House of Commons has accepted a design for a new flag for the Union of South Africa. The design for the flag shows a vertical red bar next the staff and horizontal bars in green, yellow and blue.

The Union Jack will be flown in addition to the new flag and on state occasions.

Early in the year a commission representative of all parties in South Africa was appointed to select a flag for the Union of South Africa. This step was the outcome of a friendly arrangement between Gen. J. B. Hertzog, premier and nationalist leader, and Gen. Jan. Christian Smuts, former premier and leader of the House of Assembly in the House of Assembly.

Over 3,000 designs for the new flag were submitted to the commission.

## Would Stabilize French Credit

Prominent Montreal Men Start 'Save the Franc' Fund

Montreal.—"Save the Franc" fund in Canada in aid of the French financial situation has been started in Montreal.

A prominent committee, headed by Sir Lomer Gouin, former premier of Quebec and former federal minister of finance, has been formed. The fund is being made on the basis of gratitude to France for her heroic efforts and on the practical ground that stabilization of French credit will result in the business advantage of this country.

Scottish children will be appealed to for modest subscriptions and it has been suggested that employers take up most subscription lists from employees willing to donate.

When money is raised, it will be dispatched to Marshal Joffre as head of the main fund in France.

## Decorated North Pole

Amundsen Drops Flags of Three Nations on Top of the World

Rome.—Judging by Commander Roald Amundsen's report to Rome, the North Pole, after the Norge's passage, must have had something of the appearance of a birthday cake, except that flags, instead of candles, decorated it. When Riiser-Larsen's observations indicated that they were directly above the top of the world, the great dirigible slowed up and descended close to the ice fields. A brilliant ray of sunlight cutting through the mist caused the ice to glitter like a mass of gems.

Amundsen dropped the Norwegian flag, the flag of the United States and Noble Italian, and two other Italian flags, one for the Italian Aero Club and another for the city of Rome.

## Many British Pensioners Here

Britain Spends \$500,000 a Year On Pensioners in Canada

London.—During the course of a discussion in the House of Commons on the estimates of £39,500,000 (about \$19,750,000) for the relief of pensioners, Rt. Hon. G. C. Tyrone, minister, said that there were about 15,000 pensioners in Canada, and that the government was spending altogether in Canada about £1,000,000 a year.

Expenditure on the office in Canada was £22,000, a saving of £5,000 having been effected. The minister thanked the Canadian Government for its assistance in the past in carrying out the work in Canada.

## Indian Woman Trapper Dead

Port Arthur, Ont.—Nancy, an Indian woman, born in the Long Lake district six years before Confederation, is dead. She followed the occupation of trapper and traded furs with the Hudson's Bay Company when she was a young girl. Her father, John Waynash, was chief of an Indian tribe in the Moose Factory territory for years.

## Plan Lepor Concentration Camp

Ottawa.—A rumor that a concentration camp for all lepers in Canada will be established at Gros Morne, Quebec, was brought up in the House of Commons by Georges Parent (Liberal, Quebec West). Hon. J. C. Elliott, minister of health, said that "certain negotiations have taken place but no decision has been arrived at."

## Want Bay Road Completed

Western Members Urge That Work Be Continued to Completion

Ottawa.—Completion of the Hudson's Bay Railway was urged by western members during continued debate on the budget in the House of Commons. W. J. Lewis, Progressive member for Macdonald, Man., insisted that the Hudson's Bay route was feasible. Completion of the railway would mean a much-needed outlet for Canadian cattle, which he claimed were practically barred from the British market by prevailing freight rates. Earlier, T. G. Murphy, Conservative, Neepawa, told the house that opponents of the Hudson's Bay route were trying to draw a red herring across the trail by rejecting the old question of whether Nelson or Churchill was best suited for the railway terminal.

Members of all three parties spoke in the evening. Col. H. A. Mullins, Conservative, Marquette, caused amusement during his speech by remarking on the slim attendance in the house. He regretted that he must address "only a lot of empty seats." Col. Mullins added his voice to those requesting the early completion of the Hudson's Bay Railway. The government's policy of building the railway every year did not appeal to him, he said. "The rails have been in the way for 28 years," he remarked. "It is a waste of money to build the road, described the budget as 'insincere and inconsistent.'"

## Revolt In Poland

Severe Fighting Ongoing In Streets Of Polish Capital

Berlin.—Reliable advices from Warsaw say that severe fighting occurred in the streets of the Polish capital, many persons being killed or wounded.

When news of the revolution in Poland was received, the premier, Pilsudski, and the foreign office, and the cabinet on the president's advice, decided to resign.

It is additionally reported that the Polish army is badly interrupted by the Polish agency at Warsaw sends out the information that troops loyal to the government have occupied all the public buildings.

## Manitoba Bird Sanctuary

Provincial Government Sets Apart 2,600 Acres at Portage la Prairie

Portage la Prairie, Man.—The Provincial Government has recognized the advisability of establishing a bird sanctuary at this point and for which confirmation was received from the lieutenant-governor. The territory will embrace upwards of 2,600 acres, 400 of which will be water and will be marked out by the Kiviatu Club of this city.

Furthermore, the parks board has prepared a pond for wild geese and ducks to serve as a homing place for them. It is situated adjacent to the deer enclosure in the park.

## Spirit Of Conciliation Is Required To Settle British Labor Troubles

London.—Avoidance of vindictive and a conciliatory spirit in settling the greatest industrial conflict ever known in the United Kingdom was urged by Premier Baldwin in the House of Commons, when the subject of the general strike was up for debate. At the same time he pointed out the extreme difficulty of reconciling the government's pledges that no harm would come to the volunteers with the need of reinstating every striker.

Ramsay MacDonald, former Labor premier, in opening the debate, depicted the fact that bitterness had been infused into the relations between employers and the men. He earnestly appealed for efforts so that agreement could be taken of the present position to establish good relations between the two sides.

He hoped that the government's official declaration was up for debate. At the same time he pointed out the extreme difficulty of reconciling the government's pledges that no harm would come to the volunteers with the need of reinstating every striker.

Mr. J. H. Thomas, the chief labor leader, strongly protested the attitude of the British taxpayer, the government's official declaration, which used the expression of "crushing or humiliating" of the strikers, "Total Surrender."

## Imagine the Bitterness of That

Mr. Thomas exclaimed, "to two millions of men who had refused to surrender to the Germans."

The labor leader, detailing many instances of the bitterness of the men, begged the employers in the home and elsewhere to give effect to the suggestion of reinstating the men, while doing no injustice to the men who helped the nation in its time of need, called for real statesmanship.

# British Government's New Proposals For Mediation Of The Mining Dispute

## Helicopter Prize Withdrawn

Only One Machine Constructed and Was Not Eligible For Contest

London.—The £250,000 cash prize which the British Government offered in 1923 for anyone who would construct a practicable helicopter, has expired. This was withdrawn from competition the greatest cash "prize" that has ever been offered in the history of aviation.

Although scores of drawings were submitted to the air ministry during the three years in which the prize stood open for winning, and although some fifteen inventors registered their names as contestants for the prize, only one full-sized machine was ever constructed. And even this machine was not eligible for the contest in as much as it was built with money furnished by the air ministry. The failure of the machine—the Brennan Helicopter—after some £200,000 had been spent on its construction, was the deciding factor in the decision of the air ministry to withdraw the prize altogether from competition and not to renew it for many years as was done in 1925 when the situation as to entries was identical with what it was today.

## Contract Campaign Started

Livestock Pool Will Concentrate On Districts Where Sentiment Is Favorable

Monroe, Iowa.—The Saskatchewan Livestock Pool is now ready to start its campaign for contract signers. It will accept invitations from any district to send speakers and organizers, either where local livestock shipping associations already exist, or where there is no organization but a sentiment in favor of the pool marketing system, stated W. D. Mackay, president of the recently organized Saskatchewan Livestock Pool.

In the past two or three weeks the pool has been engaged in securing the sentiment to the sentiment in various districts and the campaign for pool contract signers which will be carried on during next few weeks will be pressed in territory where it is found the sentiment in favor of the pool marketing system is strongest.

## Combat Forest Fires

Winnipeg.—More than 60 per cent. of the beer manufactured in Manitoba, upon which a hallooage tax was paid in 1925, appears to have been disposed of without being accounted for to the government liquor control commission, according to a return filed with the clerk of the Manitoba Legislature by Hon. H. W. Craig, attorney-general.

## Winipeg—Two Sealpines Have

been killed by the forest fire which has been burning since the fire is being subdued. Rain, which was falling generally throughout the province, aided the fire fighters.

## Spirit Of Conciliation Is Required To Settle British Labor Troubles

London.—Avoidance of vindictive and a conciliatory spirit in settling the greatest industrial conflict ever known in the United Kingdom was urged by Premier Baldwin in the House of Commons, when the subject of the general strike was up for debate. At the same time he pointed out the extreme difficulty of reconciling the government's pledges that no harm would come to the volunteers with the need of reinstating every striker.

## Imagine the Bitterness of That

Mr. Thomas exclaimed, "to two millions of men who had refused to surrender to the Germans."

# Says Nothing To Impede Navigation Through Hudson Straits Even In Winter Time

Are ice conditions in Hudson's Strait such as to impede navigation in the summer and fall?

"No," is the unqualified assertion of Mr. Rev. A. D. Dewdney, Bishop of Keewatin, whose diocese duties have taken him to the strait as recently as last summer. Bishop Dewdney goes further than this. He says ice will not impede navigation in the winter.

Opponents of the Hudson's Bay route for decades have argued that even if it were admitted that Hudson's Bay might be navigated for a reasonable period of the year, Hudson's Strait was an unknown quantity and would almost certainly be very dangerous to navigation at practically all times of the year.

There are no ice conditions in Hudson's Strait after the middle of July to impede navigation," he declared in an interview. In the course of superintending the work in his diocese, which extends almost to the North Pole, Dr. Dewdney has to patrol the land skirting Hudson's Bay.

On his trip to the northern part of his diocese last year, he went through the Strait, and that told him the conditions in Ungava Bay to the south of the strait and along the Labrador coast were the worst he had seen. "There was no ice in the strait to affect navigation in the heat, he said.

Dr. Dewdney asserted that Hudson's Strait is never frozen, even in winter, nor is there any float ice in fall and winter, as the ice away in the northern reaches. "No float ice is lightening up at that time."

There might be discomfort from falling in the northern waters of Hudson's Bay and Strait during the winter months, but as far as ice in the strait was concerned, or in the open waters of the bay, there was nothing to fear, he emphasized.

Dr. Dewdney tells of great changes in the great northland of Canada. Within the past year or two, the Hudson's Bay Company and Revillon Freres have opened for trading posts in the north. Within the next ten years he predicts that the whole north country will be dotted with these posts, connected with the outside world by water routes. By the time the Eskimo will have largely discontinued his whaling and fishing and will have become, like the Indian of the north, a trader.

## Western Fisheries

Prairie Provinces Secure Large Revenue From Commercial Fishing

Inland fisheries in the Canadian west, the three prairie provinces and the Yukon had a commercial value of \$2,396,528 last year. These are the returns to the provinces, which represent an increase of \$307,581 over the previous year. About 14 per cent of the marketed catch was whitefish. Manitoba leads with \$1,172,700. Saskatchewan marketed \$475,655 of the harvest of her lakes and rivers; Alberta made \$455,945; and the Yukon \$15,379.

## Satisfied Settlers

British Settlers in Alberta Are Very Well Pleased With Conditions

James Teynan, commissioner of the Allied Newspapers, Limited, completing their publications in the Old Country is making an investigation into conditions among the new settlers in Alberta. He reports that more than ninety per cent of the settlers with whom he has come in contact in Canada cheerfully declare that they have had a square deal and are satisfied with their prospects on the prairie.

## No News To Her

A pretty girl, presiding over a booth at a charity bazaar, was approached by a wealthy man that had the reputation of being miserly. "How much for these chocolates?" he asked, picking up a box of the confectionery. "Five dollars," he was told. "But," he exclaimed, looking first at the chocolates, then at the girl, "aren't you a little dear?" So he left, and the bazaar was the demure reply.

## Boys Alberta Farm

One of the best of the British youths under the Hudson scheme to buy a farm in Alberta is Mr. W. H. Wadell, who studied at the Vermilion school under the Hudson scheme last year. He has bought a farm in the Letellier district.

Parasitic trees are being used to take up the water of the swamp lands of Palestine, as they thrive in swamps.

## 4,000,000 Pounds Of Honey

Manitoba Offers Exceptional Advantages To The Beekeeper

Beekeeping in Manitoba has grown remarkably in the past few years. In 1925 there were 2,000 registered beekeepers in the province owning a total of 27,370 hives of bees, the product of which was over 4,000,000 pounds of honey, worth \$181,068, according to a recent official report.

Manitoba has many more advantages as a honey-producing province than beekeepers from supposedly more favored lands have produced. The hours of summer sunshine are long, especially in the high-producing season, thus enabling the bees to work overtime. There are some 230,000 acres in Manitoba which produce honey of varying quality from early May to September. The principal honey is in July and August.

L. T. Floyd, provincial apiarist, says that beekeeping in Manitoba is very popular with the laity, and proves his point by reporting that one in every nine of the beekeepers in the province is a woman. Mr. Floyd observes that mother and child visit Manitoba farms and also in the cities and towns have found beekeeping a very profitable and pleasant time.

## Canadian Butter Awards

Premier Awards Go To Canada At Dairy Show Held In London

At the dairy show recently held in London, England, Canada carried off the premier awards for butter.

Of the salted class Burns & Co. of Edmonton, Alberta, won the first prize with a score of 97 points, while Inland Creamery and Woodland Dairy, both of Alberta, were highly commended, both having a score of 95 points. The winner of the second prize for butter, scoring 95 points, was the Inland Creamery of Saskatchewan. Shook Lake, Manitoba, and O'Leary Dairy and Cold Storage Company, Prince Edward Island, were commended. Sutton Dairy and Creamery Co. of Sutton, Ontario, was awarded the third prize with a score of 94 points. In the unsalted class, again Canada won the first award, the successful competitors being the Saskatchewan Co-operative Creameries, Ltd., of Regina, with a score of 97½ points. It is exporting a very high class of butter and the results of this competition will undoubtedly increase this export trade.

## For Saskatchewan University

Two Manitoba Professors Will Take Up Work In Neighboring Province Saskatchewan University Is Taking Two of the Manitoba University Professors away.

Prof. J. S. de Lury, who has been associated with Prof. R. C. Wallace in the geological department of the University of Manitoba, has just returned from a tour of duty in the geological department of Northern Manitoba, will leave in 1927 to establish and organize a similar department in the Saskatchewan University. Prof. de Lury is at present doing some geological survey work for the Saskatchewan Government. Prof. R. T. McGibbon has been appointed to the chair of anatomy in the University of Saskatchewan. The chair is being established to round out the three-year pre-medical course offered. Prof. McGibbon has been at the Manitoba University since 1921. He will go to the new university at the end of the academic year.—Free Press.

## Canada's Sunniest Place

Qu'Appelle, Saskatchewan, Holds the Hottest Yearly Average

According to the records of the official weather man, Kamloops, British Columbia, enjoyed more sunshine last year than any other place in Canada. That city had a total for the year of 2,142 hours. Qu'Appelle, Saskatchewan, came second on the list in 1925 with 2,282 hours, but on the average for 50 years Qu'Appelle had 2,374 hours, while Kamloops averaged 2,352 hours. The third place in the Dominion, Winnipeg, is given second place in the 50-year average with 2,151 hours, and Edmonton, third with 2,067 hours. Last year Victoria, British Columbia, held third place with 2,267 hours, Calgary, Edmonton, Toronto and Ottawa each enjoyed over 2,000 hours.

## Needed Protection

Florian, "Chief of Police," needs protection! Ah good to get an unnamed letter this morn'g which done says: "Nigger, let mah chickens alone. Chief of Police—" "Why protection? Just leave the chickens alone." Florian—"Dat's all right, boss, but I want to know whos chickens I have to leave alone?"

Eighty per cent of the population of India got their living out of the soil.

## Livestock Prospects Encouraging

Cycle of Prosperity For Industry Now Entered Upon

There is much that is encouraging in the sixth annual Livestock Market and Meat Trade Review for 1925, just issued by the livestock branch of the department of agriculture at Ottawa. It was the best year for the feeder of good livestock in this country. It would appear, says the Review, that during a long period of depression in the industry that a cycle of prosperity has been entered upon and that, given normal pasture and feed conditions during the past few years, cattle, sheep and swine production should be more than compensated for the troubles of the past. Prospects, it is confidently said, are encouraging.

The hog situation in Canada in 1925 was remarkable for strong and steady prices on a pretty good run and there was a very noticeable improvement in the general quality of the offerings. Good bacon weights and quality were 7 per cent higher than in 1924. While short supplies from Denmark and the United States and the abrupt rise of hog prices in Canada to the Pacific coast were in a measure responsible for the betterment of the situation, the main reason for the improvement was undoubtedly the generally higher standard of quality in the select and choice classes. Due to grading, combined with a better export trade, and a regained reputation among British consumers for the producing and manufacturing of high quality bacon.

## No. 1 Hard In Austria

Canadian Hard Wheat To Be Promoted In That Country

That Canadian number one hard wheat is being promoted in Austria is the information contained in a letter received a few days ago by the department of colonization, agriculture and natural resources, Canadian National Railway, Winnipeg. The communication is from Dr. Ramek, prime minister of Austria, acknowledging receipt of a letter from the department. Dr. Ramek writes in part as follows:

"This product, which represents a highly quality and well known all over the world standard seed, is very valuable to us. We immediately sent it to the Austrian Federal Institute in Vienna for analysis with a view to further cultivation. The federal department of agriculture will provide for propagation of this sort of grain in order to advance Austrian agriculture."

## Will Follow Canada's Lead

British Ministry of Agriculture Keeping Official Policy Record

Acting on recommendations made by the National Policy Council of Agriculture, the British ministry of agriculture had drafted a policy for the official certification of poultry records similar to the record of performance for the Canadian poultry industry in Canada since 1919. The system, which is to be known as "Eggs and Welsh Stock Poultry Lay Records," was decided upon only after careful consideration and the action of the British ministry testifies to the high regard in which the Canadian record is held in other countries. The record of performance policy, administered by the Dominion department of agriculture, greatly impressed Mr. Percy Francis, British poultry commission, during a visit to Canada in 1925.

# Interesting To Speculate On The Future Development Of Agriculture In Western Canada

## Small Fruits In Peace River Country

Strawberries, Raspberries and Currants Grown At Beaverlodge Experimental Station

Small fruits do well in the Upper Peace River country. The superintendent (Mr. W. D. Albright) at Beaverlodge, Alberta, experimental station, reports that 1924 was a banner year for red and white currants, particularly for the former; that raspberries were abundant, and that strawberries should hold a substantial place in any farm garden. The New Red Dutch, Victoria Red and Cumberland varieties of red currants were particularly successful last year, six bushes of each yielding respectively 32½ lbs., 32½ lbs. and 74½ lbs. Large White Ontario 55 and White Chery Ottawa 50 varieties of white currants yielded 66½ lbs. and 72½ lbs. Black currants have not done well the last two years. It is thought that they have been pruned too liberally to obtain cuttings for distribution.

The Herbert variety of raspberry is the best yielder. In 1924 from a row not over eighteen rods long 148 quarts were gathered. Mr. Albright points out the amazing thing about this is that a width of half a rod the yield would figure out 5,621 quarts per acre at 3,944 pounds per acre.

The first ripe strawberries picked on June 25; on July 11 there was good picking, followed by continued picking up to August 10. From three rows 250 feet long and spaced four feet, plants in 1925, 157 quarts were gathered, being at the rate of 1,777 quarts per acre, and five rows planted in 1923 yielded at rates of 1,061 quarts per acre. Early Dakota is the variety cultivated. The 1925 planting was done by Mr. Albright, and was strong, early-struck plants.

## Dairy Cattle For Russia

Pure-Bred Cattle and Sheep May Be Shipped From Vancouver Island

Vancouver Island pure-bred dairy Cattle and sheep may be shipped to Soviet Russia in considerable numbers soon to replace those slaughtered during the Russian revolution and the subsequent years of chaos. This was indicated in the sale of sheep from the farm of G. H. Hadwen, near Duncan, last cattle breeder from Moscow, recently. In a letter to the department of agriculture, Victor Hadwen says this Russian breeder plans to come back to the province again in the fall to purchase more stock.

## Market For Canadian Wheat

A greater market for Canadian wheat is likely to be opened soon in China, in the opinion of John H. Brown, new consul-general in Canada for that country. Prior to the war Greece had taken practically all of her grain imports from Russia, but since the new consul-general believed Canada might be chosen by the Greek government as a field for grain purchases.

## Since the Canadian Wheat

Since the Canadian Wheat crops began dying in August, 1919, British civil machines have carried more than 60,000 passengers between London and the continent.

## A new homestead area in Western Canada is inevitable, in authoritative opinion.

Canadian authorities are in the process of the earlier maturing wheat which has pushed back the northern limit of agriculture from between sixty and seventy-five miles and added millions of acres to the productive area of Western Canada. The chairman of the federal railway commission has given it as his opinion that it will be necessary to push railway lines north to enter this vast new empire which Canada has so successfully added to her economic possessions. It suddenly becomes a new factor in Western Canadian land settlement, and adds substantially to Canadian farming opportunity as it will exist for immigrants for years to come. Canada has just completed a most remarkable quarter century of agricultural development, and it is interesting to speculate on what the quarter century hereafter will bring upon any citizen to her in this regard.

Twenty-five years ago Western Canadian farming opportunity was being steadily increasing, and a potentiality certain. In 1901, 49,149 immigrants entered Canada, 11,810 being from the British Isles, 17,547 from the United States, and 25,822 from other countries. The Canadian West was still at the time, however, a largely unknown territory, and a potentiality scarcely regarded. There were less than 15,000,000 acres occupied as farms in the entire area, and it was not until 1925 that the Canadian started assuming the long list of international agricultural awards which brought it world renown and drew wide attention to its agricultural productivity. Today there are nearly 90,000,000 acres of land in the three prairie provinces occupied in agriculture, and in the period wheat production has increased over 600 per cent, and that of other cereals and livestock and other farm products is only lesser proportion. What the victory of a century opening up effect in Western Canadian land settlement?

Canada stands out on the new quarter of a century of land settlement and agricultural development under the most auspicious. In a very brief time she has penetrated the markets of the world with the products of her farms and successfully met the competition of the long established countries. The prospects facing her farmers and those who will join them are bright. That a belief in this expansion exists even beyond the Canadian border is evidenced in the statement of Dr. O. E. Baker, of the United States department of agriculture, who before Grant Wood and his potentialities were known, estimated that Canada was potentially capable of producing a wheat crop equal to 1,200 million bushels, whereas years ago Senator Calder, of New York, gave it as his opinion that Canada was capable of producing several times the wheat acreage of the United States.

## Sugar Beet Seed

Six Carloads Arrive At Raymond For Season's Planting

Six carloads of beet seed used for the sugar beet fields of Southern Alberta have arrived at Raymond and will be distributed to the best growers at once in preparation for the coming season. Germination tests of this seed, made by the federal department of agriculture, shows an unusually high quality, and the return for this year are expected to be quite good.

## Always in Attendance

From an essay on the pleasures and benefits of walking: "I have two doctors, my leg and my right," declares M. T. Twain. "When my leg and body are out of gear and those two parts of me live at such close quarters that one always catches something from the other," says Twain, "I have only to call on my doctors and I shall be well again."

## Would Admit Only Healthy

Stricter laws to prevent the entrance of mentally diseased immigrants into the country, the establishment of psychiatric wards in British Columbia hospitals and regulations requiring the securing of clean bills of health from the country of origin before the mental hygiene commission is sitting at Victoria.

## R. C. Tin Mine

Tin is being recovered commercially by the Consolidated Mining and Smelting Company at Trail, B.C. The recovery of tin from the ore has been in progress for some time, and the tin recovered is a table by-product from its Sullivan mine. A number of tin ingots were first made in the company's laboratory.

## Warm Welcome Given Famous Stanley Cup

On behalf of the Dominion Express Company which had carried the trophy across Canada, the Stanley Cup, time-worn emblem of the world's hockey championship, was handed by Angus Hays, depot agent of the company, to T. Arnold, Vice-President of the Montreal Hockey Club, at the C.P.R. Windsor Station, Montreal, recently.

In acknowledging its receipt, Mr. Arnold expressed the gratification of his club at the service which had been given it by the Canadian Pacific Railway in the frequent trips made by the club over the company's lines to meet their engagements.

"The comfort and even luxury of the club's travelling arrangements," Mr. Arnold declared, "went a long way towards keeping the players in good condition during their tour."

The cup bears evidence of the passing of the years. There is hardly a square inch of its surface, interior or exterior, a single scratch, and it is inscribed with the name of some player or official, who at one time or another had it in their possession. To celebrate the occasion of the return of the cup after an absence of three years, it was filled with champagne and passed around until everyone present had drunk the health of the trophy or the club.

Those present to receive the cup at Windsor Station included the following, left to right: W. Downey, depot agent of the C.P.R. at Windsor; T. Arnold, Vice-President of the Dominion Express Company; Angus Hays, depot agent, Windsor Station, Dominion Express Company; who handed the trophy to the club; and Mr. H. H. Ferguson, sporting editor, Montreal Herald, who welcomed the cup on behalf of the local press; W. O'Brien, trainer, Reg. Noble, Punch Broadbent, T. Arnold, Vice-President, Montreal Hockey Club; C. Dinanore; A. Cayford, Secretary-Treasurer; E. Caron and C. Kerman.

## THE EMPRESS EXPRESS

Published in the interests of

Thursday, June 3, 1926

C. Ruffa, was admitted to the hospital on May 30.

Oliver Hadden, of Aetna Valley, was admitted to the hospital, May 31.

Dr. and Mrs. A. L. Caldwell, motored to Medicine Hat, Wednesday.

The building of a Catholic church in Empress, is cited as being very probable in the course of the next year.

Ernie Fountain, returned home last night from Calgary, accompanied by his daughter, Myrtle.

Udelle Blodgett, who has been confined to bed for five weeks, we are pleased to report, is now convalescent.

Mrs. F. Sibley and children, returned on Tuesday night from Abbey, where they had been visiting for a few days.

Bishop Kidd, of Calgary, and Father Douglas, of Glendon, were the guests of Mr. and Mrs. G. M. Miller, over Saturday and Sunday.

Mr. and Mrs. Wm. Connel, and Ed. Kinch, from Connel's Corner, were visitors in town, Monday. Mr. Connel, reports last week's rain as very heavy in his district.

To all members and adherents of the United Church in Empress and district, attention is directed to the use of the Sunday School room of the new church for services on Sunday next, June 6.

A letter from Geoff Ranges, in the Prince Albert district, informs us that things are looking very nicely there and that his goods shipped through safe. He says the boys (brothers) have a nice farm with good residence just out of town. We are pleased to say in answer to Geoff's enquiry that at present conditions are fine in the Empress district and there is good moisture.

## A Fable—Yet True

A man was one day hunting in a forest. A terrible storm came up. He looked about for shelter, but there was none. It began to rain in torrents. So he crawled into a hollow log; it fitted snugly. The rain lasted for hours. The water soaked through the wood. The log began to contract. When the storm was over the man could not get out.

He strained to free himself with all his might, but the log held tight. Exhausted, he gave up. He knew he would starve to death.

Like a drowning man he saw his whole life flash before him, especially his mistakes. Suddenly he remembered that he had not taken his children to see Harold Lloyd in "The Freshman."

That made him feel so small that he was able to crawl from the log without difficulty. Showing at Empress Theatre, Tuesday, June 22.

J. R. M. of Mantario 262

Moved Kinch—That an order be procured on the J. D. Adams Co., for a leaning wheel grader with backhoe, 8 ft. blade, to be forwarded to Manitoba by the end of May. Ayes 4. Nays 2. On Walker was not present when the matter of the grader was discussed.

The Secretary reported that he had taken up the matter of exchange with the bank due to the fact that there was no longer a branch of the Royal Bank in Empress. He had also made an analysis of the cost to the ratepayers of making any change in the banking arrangements based on a year's business and found that it would have cost ratepayers about \$40 on outgoing cheques. The Royal Bank had also agreed to reduce the rate of interest on Municipal loans to 7 p.c. leaving the other arrangements as they are at present, except the matter of exchange at banks. After discussing the matter of this exchange fully with the manager, he was of opinion that it was really not reasonable to expect him to subordinate the arrangements which he was in force when both banks were in that village. He felt, however, that the accident of change in such a large Municipality should not be allowed to penalize individuals. The Municipality could make arrangements to pay their bills at a slightly lower rate than it would cost individuals and he would suggest to the Council that the cheques issued to the bank of the Municipality be payable "with exchange" and that the Municipality accept cheques on the Bank of Canada, Empire, and the Bank of Montreal, Vancouver, at par, and pay the exchange, an account to be kept and charged by the bank money to the Municipality account.

Some discussion took place between the Council and the manager, but the Municipality was of opinion that it was really not reasonable to expect him to subordinate the arrangements which he was in force when both banks were in that village. He felt, however, that the accident of change in such a large Municipality should not be allowed to penalize individuals. The Municipality could make arrangements to pay their bills at a slightly lower rate than it would cost individuals and he would suggest to the Council that the cheques issued to the bank of the Municipality be payable "with exchange" and that the Municipality accept cheques on the Bank of Canada, Empire, and the Bank of Montreal, Vancouver, at par, and pay the exchange, an account to be kept and charged by the bank money to the Municipality account.

## Dividends Made and Paid in Saskatchewan

CAULDER'S CREAMERIES LIMITED purchases its milk and cream requirements, from which it is well known but, for and "Velvet" Ice Cream is made, from 10,000 Saskatchewan farmers located in all sections of the Province.

This year it will pay to these farmers for their products approximately \$1,750,000, thus contributing directly and substantially to the great agricultural industry of the Canadian West.

The Company employs 235 residents of Saskatchewan at its 22 plants, and from its payroll nearly 1,000 people derive their livelihood.

The value of the Company's fixed assets as at December 31st, 1925, exceeded \$1,108,000 and its net earnings for 1925 were in excess of \$92,090. These figures are certified by Messrs. Hodge, Thompson & Bamford, Chartered Accountants of Moose Jaw.

Net earnings for this year are conservatively placed at \$1,250,000, and the Company estimates that it will make over 5,000,000 lbs. of butter, representing between 30 and 35 p.c. of the anticipated butter make for the Province in 1926, as against approximately 3,500,000 lbs. of butter made in it in 1925.

In two cities alone—Saskatoon and Moose Jaw—5,000 satisfied customers purchase their daily milk and cream requirements from "Caulder's"—and the number of customers is growing at each point.

More than 1,000 Saskatchewan people now own the bonds and shares of the Company and thirty people in all parts of the Province have been quick to grasp the present opportunity to subscribe for our 7 p.c. Participating Cumulative Preferred Shares.

In addition to the regular 7 p.c. dividend, these shares have rights of participation in the surplus earnings of the Company up to 10 p.c. in any one year, after the Common Shares have received a cumulative dividend of 8 p.c. The amount of stock available is limited (less than \$800,000) out of a total issue of \$600,000 remaining for sale, and each day sees the amount remaining reduced substantially.

This is YOUR chance to make your dollars work as hard for you as you can in the most interesting thing there is in a safe place in an essential industry where they will earn for you not less than

## SEVEN PER CENT. ON YOUR SAVINGS

Safety of principal, assured dividends and good yield—7 p.c.—combine to make an attractive investment, and we feel sure that our customers, cream producers and other friends will see that this is an opportunity to make a sound and profitable investment in a basic industry which is of real value to the people of Saskatchewan.

The price per share is \$10. Not less than \$100, or more than \$2000 of shares, will be sold to any one person, and you may pay cash or on the partial payment plan—10 p.c. cash and the balance spread over next nine months. The full dividend rate is allowed on partial payments and no interest is charged the purchaser on the unpaid part of the subscription price.

Place your application with any employee of the Company, or the nearest Company Office, or with Messrs. Noy & James, Regina.
